

WELCOME TO THE

# BLACK CAULDRON

*apothecary*

THERE IS NO ALCOHOL THAT CANNOT BE LINKED TO OUR  
NATURAL WORLD AND ASSIGNED TO A GENUS/SPECIES. EVERY  
DRINK STARTS WITH A PLANT.

BOURBON? *ZEA MAYS*, AN OVERGROWN GRASS.

ABSINTHE? *ARTEMISIA ABSINTHIUM*, A MUCH MISUNDERSTOOD  
MEDITERRANEAN HERB.

BEER? *HUMULUS LUPULUS*, A STICKY CLIMBING BINE THAT  
HAPPENS TO BE A CLOSE COUSIN OF CANNABIS.

EVERY BAR OR LIQUOR STORE IS ESSENTIALLY A FANTASTICAL  
GREENHOUSE, THE WORLD'S MOST EXOTIC BOTANICAL GARDEN,  
THE SORT OF STRANGE AND OVERGROWN CONSERVATORY WE  
ONLY ENCOUNTER IN OUR DREAMS.

- BOTANIST AMY STEWART

# ELIXIRS
